

Send someone a smile today!

Send text messages directly from ACT! to anyone, anytime, anywhere!

As people become more time-poor,

email inboxes overflowing, they are turning to instant messaging to cut through the clutter. The beauty of SMS text messaging is the simplicity and speed in which a dialog can occur. Unlike chat, it does not rely on smart phone technology, thus servicing more devices and reaching a global audience instantly.

With ACT Mobile Messenger using an internet connection, you can send messages through a choice of SMS Gateway providers who distribute your messages to all points of the compass.

Text messages are perfect for:

- Getting messages out to your staff, customers or suppliers instantly.
- Confirm attendance to events and increase audience numbers.
- Close sales and auctions, confirming sale prices and bids.
- Alerts for security or IT companies providing 24/7 service.
- Emergency alerts across regions on a grand scale.
- Negotiating contracts – everything is recorded and is legally accepted.
- Guarantee your message was sent – recording date and time in ACT!.
- Scheduling follow-up activities and reminders without PC access.
- Ensuring communication is privacy law compliant with automatic Opt-Out
- Sending your message to generate instant responses.
